

CR Contractor Series

Technical Specifications

PSI: 100-135

CFM: 4.1 - 11.4

HP: 2-5.5

We are pleased to offer the following Atlas Copco CR Contractor Series, single-stage, cast iron piston air compressor. The contractor series is mobile and lightweight, designed to be portable. Multiple variants are available, from 115 volt to 230 volt, gas powered, 24 gallon horizontal and vertical, 60 gallon vertical, or 2x4 gallon twin tanks, ranging anywhere from 2-5.5HP.

CONTRACTOR SERIES FEATURES:

- Highly efficient inlet air filter
- Slow speed compressor pump with finned cylinder
- Cast iron design
- Stainless steel valves
- 115/230 volt, single-phase units
- Gas powered variant available
- Start/stop pressure switch control
- Magnetic starter included on simplexes
- Large multi-blade flywheel
- Wire belt guard
- Two-piece connecting rods
- Manual tank drain
